

# Why Walhalla Consulting?

Walhalla

Whether you need added technical expertise, an independent view, or custom automation solutions, Walhalla Consulting is the right choice for you.

# Consultant versus In-House

## Consultants Provide

- **Independent Viewpoint**
- **Special Qualifications**
- **Special Solutions**
- **Low Cost Assistance**

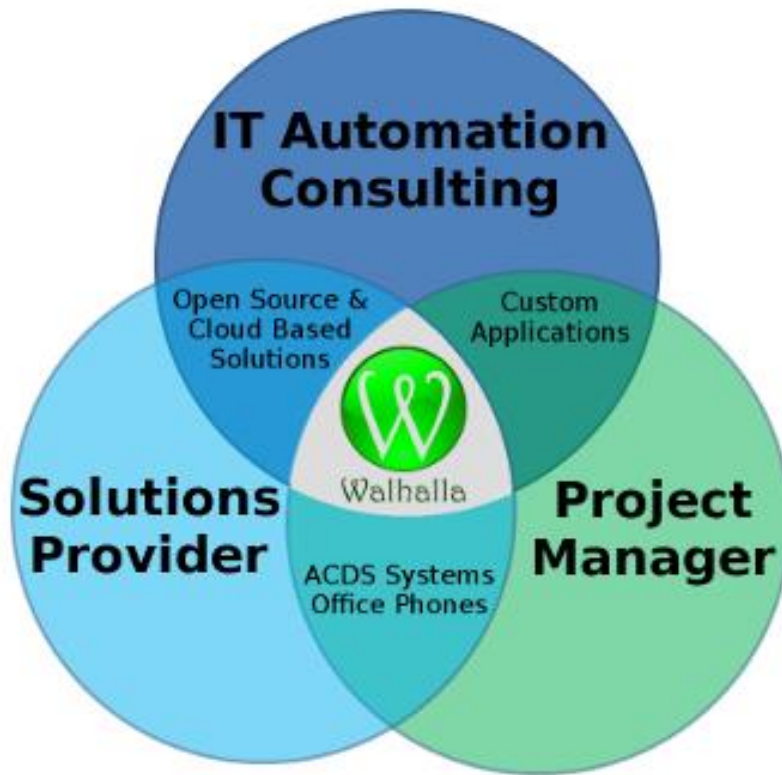

Consultants are not subject to politics of your organization so their solutions are normally unbiased. They bring special qualifications and experiences your organization may not possess internally. They provide special solutions that would be expensive or time consuming for your organization to replicate. Because a consultant is engaged for a specific task or limited function, the long-term cost is lower than trying to build the same capability organically.
